Our Design Philosophy

Limecoats is a Mumbai based company offering premium lime plaster and natural surfaces solutions across India.

Rooted in sustainability and timeless craftsmanship, Limecoats specializes in eco-friendly, mineral-based finishes that are breathable, toxin-free, zero VOC, and environmentally responsible.

From Venetian plaster and Terrazzo to textured lime finishes and bespoke artisanal surfaces, every Limecoats wall is designed to age beautifully- blending luxury with nature.

Why Lime Plaster?

Breathable

It lets moisture escape freely — no trapped damp, no peeling, no mould.

Eco Friendly

Natural minerals. Reabsorbs carbon dioxide as it cures. Zero plastic waste.

Long Lasting

Bonds into the wall itself through natural carbonation. Not just a coating.
